CALL LOAN RATES NOT SO HIGH

Business Largely Professional in Character and Not Very Active. London a Buyer of Stocks. The Bank Statement.

NEW YORK, Dec. 13 .- This morning's Stock Market ruled dull and irregular, fluctuations as a rule being confined within extremely small limits. After the irregularity of the first half hour a few rallies took place, owing to a sense of relief felt at the averting yesterday of a

New York Central was heavy on discussion of the Pennsylvania Railroad's scheme to get into New York city. St Paul also was heavy and lost about a point. Manhattan was firm, ex-dividend. Amalgamated Copper was dull but steady, a little under last night's close. Bank Showing Uncertain.

Speculation continued professional in character, trading being repressed by uncertainty as to the character of tomorrow's bank statement. Sterling exchange is steady but the movement seems to be a waiting one looking toward developments in the monetary situation, which

at this time practically makes the exchange rates. Working for a Rally.

Toward noon traders showed a dispo sition to work for rallies on the belief that there will be plenty of money to lend at current rates. Buying around the room was very good from an ulterior point of view. Prices advanced generally to about last night's close. London's purchases of stock aggregated between 20,000 and 25,000 shares. Sales of stock to 1 p. m., 420,000 shares; bonds, \$1,849,000.

Support of a positive nature and from what were supposed to be inside sources showed in Atchison, Union Pacific, St Paul, the Wabashes, and other good railway securities around noon today. At the same time there was a somewhat more liberal offering of money, and no disposition to advance call loan rates which tended to make the street more cheerful as to the market outlook.

General rallies occurred as a result and it seemed not improbable that the lowest prices of the present movement had been reached. If the big liquidation of loans during the past week has been up to the calculations of the experts the bank statement will not be nearly so bad as was at first expected, though there has undoubtedly been a heavy decrease in

Rock Island-Atchison Talk.

There is some talk also of buying of Atchison by the Moore interests, which have undoubtedly acquired control of the Rock Island. Rumors of closer relations between these two systems are not with out& probability, though if there is to be an alliance it is not likely to be any more than a community of interests plan with perhaps reciprocal traffic arrangements. The election of the new president of the Rock Island has called forth much gossip regarding the excellent outlook for the system with its recent additions of territory and heart in recent additions of territory and heavy increase in traffic and
